

Infosafe No™ VARBB	Issue Date : May 2024	ISSUED by MILESTON
Product Name APAC		

Section 1 - Identification

Product Identifier	APAC
Company Name	Milestone Chemicals Pty. Ltd. (ABN 85115166357)
Address	115 Northern Road West Heidelberg VIC 3081 AUSTRALIA
Telephone/Fax Number	Tel: (03) 9450 4555 Fax: (03) 9457 5518
Emergency Phone Number	(03) 9450 4555 Mon-Fri 8am - 6pm
Recommended use of the chemical and restrictions on use	Chlorinated fine abrasive powder for cleaning porcelain ware, floors, terrazzo, glazed bricks, marble and similar surfaces.

Section 2 - Hazard(s) Identification

GHS Classification of the Substance/Mixture	Eye damage/irritation: Category 2
Signal Word	WARNING
Hazard Statement (s)	H320 Causes eye irritation.
Pictogram (s)	Exclamation mark

Precautionary Statement – Prevention	P264 Wash contaminated skin thoroughly after handling. P280(e) Wear eye protection/face protection.
Precautionary Statement – Response	P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P337+P313 If eye irritation persists: Get medical advice/attention.
Precautionary Statement – Storage	P404 Store in a closed container.
Precautionary Statement – Disposal	P501 Dispose of contents/container: Recycle packaging by replacing cap and returning clean containers to recycler or designated collection point.
Precautionary Statement – General	P102 Keep out of reach of children. P103 Read carefully and follow all instructions.

Section 3 - Composition and Information on Ingredients

Ingredients	Name	CAS	Proportion
	Non hazardous surfactants	Mixture	0-10 %
	Chlorinated Trisodium phosphate	56802-99-4	1-5 %
	Sodium dichloroisocyanurate, dihydrate	51580-86-0	<2%
	Ingredients determined not to be hazardous		to 100%

Section 4 - First Aid Measures

Inhalation	Move victim to fresh air. Apply resuscitation if victim is not breathing - If trained personnel available administer oxygen if breathing is difficult.
Ingestion	If swallowed, do NOT induce vomiting. Give a glass of water to be taken slowly. If irritation develops or persists transport to hospital or doctor.

Infosafe No™ VARBB	Issue Date : May 2024	ISSUED by MILESTON
--------------------	-----------------------	--------------------

Product Name **APAC**

Skin	If dust falls onto the skin, remove any contaminated clothing and wash skin thoroughly with soap and water. If irritation persists transport to hospital or doctor.
Eye	If dust enters the eyes, flush with plenty of water for at least 15 minutes, ensuring eye lids are held open. If irritation develops or persists, immediately transport to hospital or doctor.
First Aid Facilities	Recommended: Eye wash. Hand wash basin.
Advice to Doctor	Product contains a very high proportion of non-silica inert filler, and a low proportion of a surfactant. If swallowed, vomiting should not have been induced because of the risk of aspiration of powder into the lungs. Risk of mechanical damage if in eyes. Treat symptomatically. Contact Poisons Information Centre.
Other Information	Inhalation of dusts may represent an acute risk to persons with a compromised respiratory system.

Section 5 - Firefighting Measures

Suitable Extinguishing Media	Water, or as for other chemicals present.
Hazards from Combustion Products	Decomposes on heating emitting soot, smoke and decomposition products.
Specific Methods	In case of small fire/explosion use water. In case of major emergency use PPE: breathing apparatus and protective gloves.
Specific Hazards Arising from the Chemical	This material is not a combustible or flammable solid. However, under certain conditions this material, if sufficiently distributed in air and a suitable source of ignition is present, may cause a dust explosion.

Section 6 - Accidental Release Measures

Spills & Disposal	Avoid generating dusts. Wear suitable protective equipment. Ventilate area. If possible wet area down to prevent high dust levels. If available, use dustless methods, such as a HEPA vacuum and filter. Otherwise, use a non-sparking shovel and place into a suitably labeled container for later disposal. Do not dry sweep.
------------------------------	---

Section 7 - Handling and Storage

Precautions for Safe Handling	Do not generate dusts. Avoid contact with skin and eyes. Keep away from acids.
Conditions for safe storage, including any incompatibilities	Store in a cool place and out of direct sunlight. Store away from sources of heat or ignition. Store away from oxidizing agents. Keep containers closed, when not using the product. Store in original packages as approved by manufacturer.

Section 8 - Exposure Controls and Personal Protection

Engineering Controls	Good industrial hygiene practice requires that employee exposure be maintained below the recommended TLV/TWA. This is preferably achieved through the provision of adequate ventilation where necessary. Where dust cannot be controlled in this way, personal respiratory protection should be employed.
Personal Protective Equipment	Avoid contact with skin and eyes. Do not breathe dust. Personal protection to be selected from those recommended below, as appropriate to mode of use, quantity handled and degree of hazard:- Chemical goggles Gloves, rubber or plastic. Full face respirator with dust filters fitted or suitable dust mask Always maintain a high level of personal hygiene when using cleaning chemicals. That is wash hands before eating, drinking, smoking or using the toilet.

Section 9 - Physical and Chemical Properties

Form	Solid
-------------	-------

Infosafe No™ VARBB	Issue Date : May 2024	ISSUED by MILESTON
--------------------	-----------------------	--------------------

Product Name **APAC**

Appearance	Fine white free flowing powder
Odour	Faint floral fragrance
Melting Point	No data.
Solubility in Water	Largely insoluble
Specific Gravity	2.7 (bulk density)
pH	Not applicable
Vapour Pressure	None
Flash Point	None.
Flammability	Not flammable.
Other Information	May react vigorously with strong mineral acids, generating a small quantity of chlorine, a toxic gas. Slowly soluble in concentrated caustic alkalis. May react with strong oxidising agents. May absorb moisture from the air. Spillages will be slippery when wet.

Section 10 - Stability and Reactivity

Chemical Stability	Stable under normal use conditons.
Possibility of Hazardous Reactions	Contact with acids may generate chlorine.
Conditions to Avoid	Incompatible materials, moist air. Heating may dry out this product, which may then generate harmful dust.
Incompatible Materials	Acids, oxidising agents, caustic alkalis.
Hazardous Decomposition Products	Decomposes on heating emitting soot, smoke and decomposition products.

Section 11 - Toxicological Information

Toxicology Information	No adverse health effects are expected, if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms and effects that may arise if the product is mishandled and overexposure occurs are:
Ingestion	May cause irritation to mouth, throat and stomach with effects including mucous build up, irritation to the tongue and lips and pains in the stomach, which may lead to nausea, vomiting and diarrhoea.
Inhalation	This product is not expected to be a dust risk under normal use. It may become a dust risk if heated, or allowed to dry out. Inhalation of dusts may cause coughing, irritation of the throat and difficulty breathing. The harmful effects may be enhanced by smoking.
Skin	May cause irritation to the skin, with effects including; Redness and itchiness.
Eye	May cause irritation to the eyes, with effects including: tearing, pain, stinging and blurred vision.
Chronic Effects	Chronic inhalation over-exposure may cause nosebleeds, nasal congestion, erosion of the teeth, perforation of the nasal septum, chest pain, bronchitis. Chronic skin contact may lead to sensitisation and dermatitis.

Section 12 - Ecological Information

Ecotoxicity	May be harmful to aquatic organisms.
Persistence and Degradability	Inherently Biodegradable.
Mobility	Insoluble Dust.
Other Adverse Effects	There is no ecological information available for this product, however, large quantities should not be discharged into drains, sewers or waterways.

Infosafe No™ VARBB	Issue Date : May 2024	ISSUED by MILESTON
--------------------	-----------------------	--------------------

Product Name **APAC**

Environmental Protection Avoid contaminating waterways, drains, sewers, or ground.

Section 13 - Disposal Considerations

Waste Disposal Refer to appropriate authority in your State. Dispose of material through a licensed waste contractor. Normally suitable for disposal by approved waste disposal agent.

Section 14 - Transport Information

Transport Information Not classified as a Dangerous Good according to the Australian Code for the Transport of Dangerous Goods by Road and Rail.

Section 15 - Regulatory Information

Poisons Schedule Not Scheduled

Australia (AICS/AIIC) All components listed.

Section 16 - Any Other Relevant Information

Date of Preparation 29/05/2024

Literature References Preparation of Safety Data Sheets for hazardous Chemicals Code of Practice
Standard for the Uniform Scheduling of Medicines and Poisons
Australian Code for the Transport of Dangerous Goods by Road & Rail
Globally Harmonised System of classification and labelling of chemicals GHS7

Signature of Preparer/Data Service Technical manager Tel: (03) 9450 4555

Technical Contact Numbers Emergency Advice All Hours:
Chief Chemist Tel: (03) 9450 4555 Mon-Fri 8am - 6pm
Poisons Information Centre: 13 11 26 - 24hrs

Other Information This SDS summarises at the date of issue our best knowledge of the health and safety hazard information of the product, and in particular how to safely handle and use the product in the Workplace. Please refer to the technical datasheet (Instructions for use), and the label on the drum. The company cannot anticipate or control the individual working conditions encountered and so each user should read this SDS carefully, and if in doubt ring the Contact Point Number given below.
