# H.A.C. (HYDROCHLORIC ACID CLEANER)

## Hydrochloric Acid Cleaner

### DESCRIPTION

HAC is a proven blend of Hydrochloric Acid and mild detergents designed to effectively remove cement and concrete residues from most washable surfaces.

Effective in the removal of cement and concrete residues from tools, agitators and mixers.

### DIRECTIONS FOR USE

Dilution: 150ml H.A.C (Hydrochloric Acid Cleaner) 1L water.

Dilute in plastic bucket (never metal) by adding water first, then HAC slowly and carefully to avoid splashing.

Wet area to be cleaned with potable water, saturate surface with HAC solution and allow 5-10 minutes contact time.

Scrub surface with stiff bristled nylon brush, where necessary. Rinse thoroughly.

Contains: Hydrochloric Acid 20-30%

**Ideal for use in Construction & Manufacturing Industries**
