## PRODUCT INFORMATION SHEET

# LIQUID POOL CHLORINE

**SODIUM HYPOCHLORITE** For Control of Bacteria and Algae in Swimming Pools and Spas

### DESCRIPTION

Liquid Pool Chlorine for control of Bacteria and Algae in swimming pools and spas.

APVMA Approved Number: 68268/57892

### DIRECTIONS FOR USE

| POOL VOLUME, LITRES                     | *STABILISED POOLS DAILY CHLORINE DOSAGE | UNSTABILISED POOLS DAILY CHLORINE DOSAGE | FREE CHLORINE CONCENTRATION    |
|---|---|--|--------------------------------|
| 10,000                                  | 200mL                                   | 400mL                                    | Refer to Required Levels Table |
| <b>Initial Start Up Shock Treatment</b> | 7x Daily Dosage                         | 4x Daily Dosage                          | 10-15mg/L                      |
| <b>Super Chlorination</b>               | 4x Daily Dosage                         | 2x Daily Dosage                          | 10ml/L                         |

\*Contains chlorine stabiliser, such as cyanuric acid

These dosage rates are only a guide to assist in achieving the required levels of free chlorine.

### REQUIRED LEVELS

| TYPE OF POOL                                      | LEVEL OF STABILISER mg/L | TOTAL ALKALINITY mg/L | MINIMUM FREE CHLORINE LEVEL (mg/L) |            | pH (optimum range) |
|---|--------------------------|-----------------------|------------------------------------|------------|--------------------|
|   |                          |                       | Below 26°C                         | Above 26°C |                    |
| Unstabilised Outdoor                              | Nil                      | 60-200                | 1.0                                | 2.0        | 7.2 - 7.6          |
| Stabilised Outdoor                                | 30-100#                  | 60-200                | 2.0                                | 3.0        |                    |
| Unstabilised Indoor Pool                          | Nil                      | 60-200                | 1.5                                | 2.0        | 7.2 - 7.8          |
| Spa Pool (water temperature not higher than 40°C) | DO NOT use stabiliser    | 60-200                | 2-4                                |            | 7.2 - 7.8          |

# DO NOT exceed a concentration of 50mg/L of isocyanurate.

**NOT TO BE USED FOR ANY PURPOSE OR IN ANY MANNER CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION**

Contains: 12.5% available chlorine as Sodium Hypochlorite

# PRODUCT INFORMATION SHEET

## LIQUID POOL CHLORINE

SODIUM HYPOCHLORITE For Control of Bacteria and Algae in Swimming Pools and Spas

### DIRECTIONS FOR USE CONT...

**GENERAL INSTRUCTIONS:** The correct level of free chlorine should be maintained for several hours prior to and during swimming activity.

**Chlorine levels and pH** should be tested daily by use of a reliable test kit using fresh testing reagents. If pH falls below the required level add dry alkali, if it rises above add dry acid or hydrochloric acid. Dose the pool in the evening when the pool is not in use. Dosage rates indicated are only a guide. Dose the pool and then test to ensure the required free chlorine levels are reached.

If stabilisers are present in the pool, **stabiliser levels should** be tested fortnightly by use of a reliable test kit. If 50mg/L of stabiliser is exceeded the ability of the chlorine to control algae and bacteria is reduced.

**UNDER NO CIRCUMSTANCES** should stabiliser concentrations be allowed to exceed 100mg/L. If stabiliser concentrations needs to be reduced consult your local pool shop.

**SUPER-CHLORINATION:** During the swimming season, Super-Chlorinate once per week. After Super-Chlorination, the pH balance of your pool should be checked.

**WINTER MAINTENANCE:** A Super-Chlorination dose once per month is necessary to maintain your pool in good condition during winter.

APVMA Approved Number: 68268/57892

### ORDER TODAY

| ORDER CODE | PACK SIZE |
|------------|-----------|
| POOLC15    | 15L Drum  |
| POOLC110   | 110L Drum |
| POOLC200   | 200L Drum |

**Dispose of contents/container** to authorised chemical landfill. (Return to empty container to manufacturer for disposal). Not to be used as a food container.

### SAFETY INFORMATION

PLEASE READ SAFETY DATA SHEET BEFORE USING THIS PRODUCT

Classified as a Class 8 Dangerous Good. HYPOCHLORITE SOLUTION UN1791. Corrosive to Metals: Category 1. Eye Damage/Irritation: Category 1. Skin Corrosion/Irritation: Category 1B. Contact with acids liberates toxic gas. May be corrosive to metals. Causes severe skin burns and eye damage. Causes serious eye damage. Keep out of reach of children. Read label before use. Keep only in original container. Do not breathe dust/fume/gas/mist/vapours/spray. Wash contaminated skin thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection. Absorb spillage to prevent material damage. Store locked up.
