PRODUCT INFORMATION SHEET

NILGERM

Hospital Grade Disinfectant Spray: KILLS COVID-19 (Sars-cov-2)

DESCRIPTION

NILGERM is a Hospital Grade Surface Spray Disinfectant which is proven to kill a broad range of bacteria including *Staphylococcus Aureus*, *Pseudomonas Aeruginosa*, *Salmonella Enterica* (formerly *Choleraesuis*), *Escherichia Coli* and *Proteus Vulgaris*, and is effective against SARS CoV-2, Herpes Simplex Type 1, when tested under dirty conditions.

Hard surface disinfectant only. Not to be used on skin.

This product is not intended for use on medical devices or other therapeutic goods.

DIRECTIONS FOR USE

Using a funnel, transfer the content into a spray bottle. Use undiluted as surface spray. Do not mix with other chemical or detergents.

Wear appropriate Personal Protective Equipment to avoid contact to skin, eyes, nose and mouth prior to use.

Remove all visible soilage from surface to be disinfected.

Spray NILGERM liberally around the soiled area and work towards the centre, absorb any residues with paper or cloth towelling.

Note: NILGERM is tested under dirty conditions and hence precleaning of stains or blood residue is not required. However it is recommended that surface is pre-cleaned if spillage is major.

The surface should remain wet for 10 minutes.

Active Constituent: Benzalkonium Chloride 0.7% w/w Chlorhexidine 0.02% w/w

Kills COVID-19 (SARS-COV-2)

Other Therapeutic Good - Listed disinfectant
