PRODUCT INFORMATION SHEET

SCALE

Rust & Scale Remover

DESCRIPTION

Phosphoric acid based cleaner, for the removal of scale and rust from metal surfaces.

For treatment of meat hooks, slides and gambrels, after de-rusting items in alkaline solution, use SCALE to phosphatize & brighten metal before treating with Hook Oil.

Other uses include de-scaling of ferrous metals, the removal of lime and other salt deposits, when de-rusting metal before painting, and de-scaling internal surfaces of industrial dishwashing machines.

DIRECTIONS FOR USE

Under normal conditions use 100ml of SCALE to 1L of cold water. To increase effectiveness hot water may be used.

NOTES:

- Use plastic or stainless steel tanks. If necessary apply by brush, use rubber gloves and avoid contact with skin and eyes.
- After treatment of equipment with SCALE rinse all contacted surfaces with potable water.
- Do NOT apply further treatment to equipment without prior rinsing.

CAUTION:

- Do NOT allow equipment to remain in SCALE for a prolonged period. Rinse all tanks and containers with clean water after use.
- SCALE Rust and Scale remover contains Phosphoric Acid and is poisonous and corrosive.
- SCALE must be handled with care at all times.

Industrial Dishwashers - Refer to the SCALE Commercial Dishwasher De-Scale Procedural Guide.

Contains: Phosphoric Acid 30-60% w/w

Concentrated formula, SCALE effectively removes built up scale & rust, brightening metal
