PRODUCT INFORMATION SHEET

SODIUM HYPO

Commercial Chlorine Bleach

DESCRIPTION

Sodium Hypochlorite in solution exhibits broad spectrum anti-microbial activity, when used to sanitise (and/or disinfect) surfaces bacteria present will be killed on contact.

Sodium Hypochlorite is widely used in general sanitation and water treatment within Food Processing and the Dairy Industry.

DIRECTIONS FOR USE

For HARD Surface sanitation within food processing and dairy industry, dilute Sodium Hypochlorite at a rate reflective of industry standards.

Can be diluted at 200ml per 100L of water to sanitise 'pre-cleaned' equipment.

Milestone Chemicals Australia can provide expertise and hygiene solutions to enhance food safety and product quality. Our efficient, effective and practical approach ensures a sustainable and effective result in relation to plant, personnel and product hygiene.

EXPLORE THE RANGE

Contains: 12.5% available chlorine as Sodium Hypochlorite

Effective results, wide germicidal activity
