PRODUCT INFORMATION SHEET

SPA KLEEN

Spa Cleaner & Sanitiser

DESCRIPTION

SPA-KLEEN is an all-in-one cleaner and sanitiser for use in spa baths, spa pools and bathtubs.

SPA-KLEEN is designed to breakdown and remove body-fats, oils, skin tissue, hair and other organic matter that builds-up in the spa-pump and re-circulation system.

The antimicrobial effectiveness of SPA-KLEEN is achieved from high quality Quaternary Ammonium Compounds, able to clean and sanitise surfaces that may contain traces of bacteria such as Pseudomonas Aeroginosa, Staphylococcus, E-Coli and Bacillus.

DIRECTIONS FOR USE

Spa Bath (Up to 500L)

1. Fill Bath to above Jet outlets, using COLD water.
2. Open all Jet outlets and turn on Spa pump.
3. Using supplied fully labelled chamber bottle, add 50ml of SPA KLEEN to bath. Run for approximately 5 minutes.
 - A build-up of foam will occur, dark areas may form in foam due to body fat and soap scum removal.
4. Turn off Spa pump and drain bath.
5. While the bath is draining, wipe surface of bath using a damp cloth to remove excess grime and rinse with clean potable water.
6. Dry surface of bath with a clean dry cloth.

NOTE: For the cleaning and sanitation of previously untreated baths (over - 18 months) following the SPA BATH cleaning and sanitation process daily until satisfactory hygiene level is achieved. (Visually unable to see dark patches in foam build-up).

Effectively cleans & sanitises spa/bath surfaces which may contain bacteria traces
