Manufacturing Location: 115 Northern Road, West Heidelberg. Victoria 3081.

Milestone Chemicals Australia Pty. Ltd. employs manufacturing practices and principles that ensure all supplied chemical products conform to specified criteria and comply with applicable regulatory standards. Batch retain samples are archived for a duration of twelve (12) months, with each batch distinctly identified by a unique Batch Number printed on the product label.

Comprehensive information pertaining to potential chemical allergens is provided within the relevant Safety Data Sheets (SDS). Supplementary details—including, but not limited to, recommended usage procedures, dilution ratios, personal protective equipment (PPE) requirements, first aid protocols, and storage guidelines—are clearly presented on product labels and within the SDS. Users are expected to consult these resources to determine all necessary handling and usage information.
